ABOUT *ASTOR*

You see it with four wheels and call it a car.

But don't fall for stereotypes.

Because this is like no car you have ever met before.

Look within.

Take a peep inside and you will find out who it really is.

A teller of stories and knowledge.

A friend, philosopher, and guide.

It will tell you when to stop.

Where to park.

It can look you in the eye and tell a joke when you need one.

It will be by your side always, keeping you safe.

The bond you will develop with it will be special.

It's more than a car.

It's the new MG Astor.

THE MOST ADVANCED SUV IN ITS CLASS.

WHAT'S NEW

An elevated driving experience awaits you in the MG Astor 2024. It is equipped with a host of advanced features that accentuate your comfort and augment your convenience on the road.

Ventilated Seats

Wireless Android Auto
& Apple CarPlay

Wireless Charger

Auto Dimming IRVM

i-SMART 2.0 with Advanced UI

AUTONOMOUS LEVEL-2 (ADAS)

Advanced Driver Assistance System is a group of safety and convenience functions intended to improve comfort for drivers and road safety, and preventing or reducing the severity of potential accidents. ADAS can do all this by alerting the driver, implementing possible safeguards in the vehicle and automating driving controls*. Autonomous Level-2 features don't just make driving more comfortable, but also keep your safety at the forefront. With Level-2, the system performs acceleration/ braking functions along with activating steering control to assist the driver.

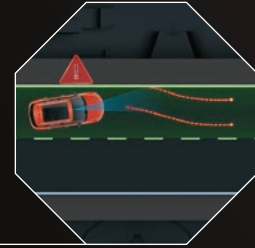

14 Autonomous Level-2 (ADAS) Features

First In Segment

*Advanced Driver Assistance System (ADAS) is not a substitute for human eye and driver vigilance, it is a driver assist system that enhances driving experience and safety. The driver shall remain responsible for safe, vigilant and attentive driving.

Lane Functions

**Lane Keep Assist. Lane Departure Prevention.
Lane Departure Warning.**

The multipurpose camera identifies lane markings and warns you in case the vehicle is deviating from the lane and can even correct your course. It can also actively keep the vehicle in the centre of the lane by controlling the steering.

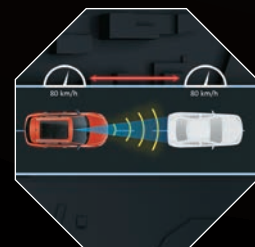

Rear Drive Assist

**Blind Spot Detection. Lane Change Assist.
Rear Cross Traffic Alert.**

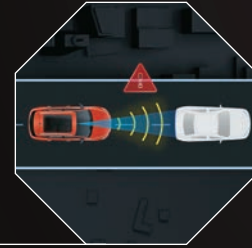

Rear Drive Assist functions monitor the vehicle's surroundings to eliminate any blind spots; which are otherwise not detected in the ORVM, reverse camera, or sensors. Upon detection of a possible hazard, be it a vehicle already in the blind zone, an approaching vehicle at high speed while you are changing lanes, while reversing or a vehicle which is approaching from rear left or right, the system alerts the driver through visual and acoustic signals.

Adaptive Cruise Control

Adaptive Cruise Control is an advanced version of cruise control. It senses and monitors the road ahead and automatically accelerates/decelerates for maintaining a proper distance from the vehicle in front.

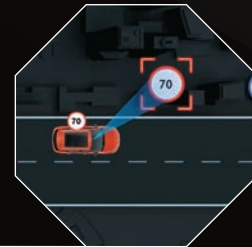

Forward Collision Prevention

**Front Collision Warning. Automatic Emergency Braking.
Automatic Emergency Braking - Pedestrian.**

The system alerts the driver about a probable collision with a four-wheeler, two-wheeler, or a pedestrian when the gap becomes too close and applies autonomous deceleration if there is no action from the driver.

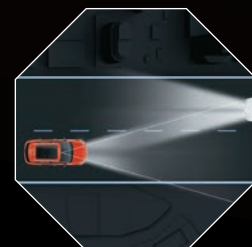

Speed Assist System

**Speed Warning.
Intelligent. Manual.**

Speed Assist System monitors traffic signs on the road from which it is possible to infer the speed limit. The system alerts the driver in case of overspeeding through visual and acoustic means. It can also slow down the car to the speed limit automatically in intelligent mode. You can even set your own speed limit in manual mode.

Intelligent Headlamp Control

Intelligent Headlamp Control activates and deactivates the high beam, depending on the oncoming traffic and environment. Thus, preventing other road users from blinding due to high beam.

PERSONAL AI ASSISTANT

Imagine a world where your car understands you, knows your voice, and reacts to it. Or when you require any information, your car finds that for you. Or when you are in need of it, it cracks jokes for you, making each moment lighter.

Now imagine if that car was already here.

Introducing India's First Car With Personal AI Assistant.

Knowledge

Chit-chat and
Hinglish commands

First In Segment

*MG Motor India Private Limited bears no responsibility or liability for Personal AI Assistant and its functionality or content being always accurate, reliable, available, or complete.

Wingman

The personal AI Assistant loves following your commands. So much so that it understands myriad commands, including 35+ Hinglish ones. So, which one will be your first command?

Know-it-all

Caught a fleeting glimpse of something amazing and intrigued to know more? Have a general knowledge question? Feel free to express your curiosity as it uses Wikipedia.

Hilarious

Who doesn't like a joke or two? This AI assistant loves it. That's why it is always ready with one. Prepare to get your ribs tickled.

Attentive

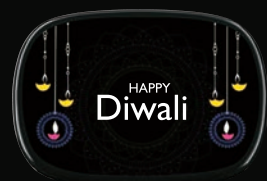

Imagine your best friend. It looks at you when you ask anything. Awesome, isn't it?

Well-informed

Won't you love to always stay informed? This AI assistant is going to amaze you with all the latest updates. Just go ahead and ask.

Festival mascot

Festivals are fun, and this AI Assistant knows it. It wishes you during your favourite festivals in its own signature style.

STYLED TO PERFECTION

Astor impresses at first glance with its striking and elegant contours. Styled with signature MG elements and distinctive athletic details, it is bound to make its presence felt, no matter where you take it.

Bold Celestial Grille

Full LED Hawkeye Headlamps

Turbine-Inspired Machined Alloys

LED Tail Lamps

THE
MOST ADVANCED SUV
IN ITS CLASS

Rear Bumper with Chrome Accentuated
Dual Exhaust Design

The image shows the front interior of a car. The dashboard is covered in dark red leather with visible stitching. In the center, there is a large, rectangular infotainment screen displaying a user interface with various icons for navigation, music, and climate control. Above the screen, there are air vents and a small, black, cube-shaped device with a smiling face on its front. The gear shift is visible in the lower right corner, and the overall lighting is soft and focused on the central area.

OPULENT TO THE CORE

The interiors of Astor reveal a luxurious sense of spaciousness, refined with high-quality elements and eye pleasing colour schemes. Combined with premium upholstery, the cabin is a fusion of modern design and sophisticated comfort.

i-SMART 2.0 WITH ADVANCED UI

With first-in-the-segment seamless and always-on connectivity, Astor combines hardware, software, services, and applications to make your driving experience easier and smoother.

80+ Connected Car Features 

Best In Segment

i-SMART services are complementary for 1 year with the purchase of a new MG that hosts the i-SMART technology. The services are activated on the date of delivery and validity period of services will commence from such date.

DIGITAL BLUETOOTH® KEY SHARING

In case of emergency or loss of car key, use the digital key to unlock, lock, start, and drive your Astor, without being network-dependent.

First In Segment

INTRODUCING ANTI-THEFT IMMOBILIZATION

No more worrying about the safety & security of your Astor, which is now equipped with anti-theft immobilisation technology in i-SMART 2.0. Once enabled, the car won't start even with a physical key, ensuring maximum safety even in your absence. This is a network-independent feature.

Features and specifications may vary model wise.
